PALO ALTO SOFTWARE • MARCH 2021 – PRESENT

Staff Product Designer for LivePlan

- Redesigned the business plan feature leading to a 20% reduction in churn, and a 28% increase in AI engagement.
- Identified painpoints, needs, and desires of users through customer interviews, session replays, user-tracking analysis in Amplitude, and competitive research.
- Tested solution ideas using high and low fidelity prototypes, usability testing, customer surveys, fake door tests, and feature MVPs
- Collaborate with developers daily as an integrated designer on both product discovery and delivery teams.
- Designed implementations of AI based on user desirability, including: Business plan help me write tools, AI monthly financial review, Business Plan Review, Market Research report, and business idea validator.
- Helped design better user research and customer discovery processes to help drive us from a “voice of the persona” product culture to a “voice of the actual customer” culture.

NULIA • JANUARY 2020 - FEBRUARY 2021

Senior Product Designer

- Led a complete overhaul of the UI/UX, paving the way for a global product release.
- Managed a complete accessibility audit, and implemented a plan to meet WCAG 2.1 compliance which was great for customers (accessibility FTW!) and business (it allowed us to sell to governments and institutions in the US and Europe).
- Nulia was honored as the “Modern Workplace: Apps & Solutions for Microsoft Teams Partner of the Year” in 2020.

TWENTY IDEAS • JULY 2017 - DECEMBER 2019

Design Director

- Built a design team from the ground up, hiring and mentoring a group of five talented, earnest, and eager designers.
- Guided our company from a development-focused crew to a full-fledged product agency.
- Served on the Executive team, playing a pivotal role in expanding our tight-knit group from 8 to 24 while increasing profitability, nurturing productivity, and – most importantly – making Twenty Ideas a great place to work.
- Cultivated a company culture rooted in structured best practices, fostering top-tier product thinking across all client projects.
- Spearheaded the successful launch of over a dozen web and mobile products, each one a testament to our team's growth and cohesive effort.

Josh is a rare individual with a range of talents including high-level strategy for product...and **on top of that is fun to work with** and a great team member. If you are lucky enough, I highly recommend working with him.

Mike Biglan, Founder/CEO of Twenty Ideas

Josh's experience in UX, HCI, and product design are invaluable skills to any startup or product team, and his positive attitude, hilarious spirit, and joyful approach to tackling problems are invaluable skills for any team anywhere.

Laurel Benson, Product Designer
(former direct report at Twenty Ideas)

CONCENTRIC SKY (NOW A PART OF INSTRUCTURE) • JUNE 2012 - JULY 2017

Senior UI/UX Designer

- A product design and management hybrid role that served as the principal expert of customer, business, and user data, business, and market knowledge for client projects across multiple industries – including education, healthcare, and public services.
- Established the foundation for iterative discovery and design for new and existing products across web, mobile and tablet platforms.
- Performed customer research, architected functional requirements and information architecture, wireframes, prototypes, and brand guidelines.
- Oversaw project design teams of 1-3 designers to execute UI and UX design discovery.
- Consistently maintained projects with the highest level of profitability, client satisfaction, and project longevity across the entire agency.
